

National FAA Safety Team presents:

AirVenture 2023 Forum - E-Z WINGS

“WINGS is now E-Z!” will introduce the audience to the WINGS Industry Network and its flagship product “E-Z WINGS”, a smart phone application for easily requesting or validating WINGS credits toward earning a phase of WINGS.

The WINGS Industry Network is a cooperating group of aviation industry members working in collaboration with the FAASafetyTeam to reduce the number of general aviation accidents by pilot & aviation maintenance technician proficiency training through the FAA WINGS Pilot Proficiency Program. Although it's widely known that pilots who earn a phase of WINGS are less likely to be involved in an accident, the number of pilots earning a phase of WINGS remains disappointingly low. Improving the user experience with www.FAASafety.Gov website is tantamount to increasing the number of pilots & AMT's using the WINGS program.

Previously, pilots realized frustrations trying to log into the website and find appropriate activities & courses for which they should receive credits.

Likewise, CFI's & DPE's found it difficult to find and validate credits for pilots with whom they had flown.

The WINGS Industry Network has developed a smart phone/iPad application that quickly logs in

Administrator JAY MICHAEL FLOWERS

the user to www.FAASafety.Gov website, finds the applicable course or activity, and allows the pilot to request credit and the CFI/DPE to validate WINGS credits without getting lost in the website. You will be amazed at how E-Z it is to qualify for a phase of WINGS.
WINGS/AMT credit N/A!

Directions: The FAA Safety Center is centrally located on the EAA AirVenture grounds on the South side of the control tower. We are the large tan building with the rooftop deck facing the runway. Forums entrance is on the west side of the building.
Prior to attending a safety seminar, please review and abide by current CDC, State and local health guidelines.
